Measure Your Blood Pressure Accurately, Control It, Live Longer

Resource List for World Hypertension Day, May 17th, 2024

Raised blood pressure is the biggest single contributing risk factor to global health.

World Hypertension Day is aimed at raising attention on the importance of a better hypertension control. This important worldwide activity, started by the World Hypertension League (WHL), was first held on May 14, 2005, and since then World Hypertension Day has been an ever-expanding yearly event.

Its purpose is to communicate to the public the importance of hypertension and its serious medical complications, and to provide information on its prevention, detection, and management. To do this requires cooperation of health care professionals, media, volunteer organizations and government in each country.

As a support to educational outreach efforts on World Hypertension Day, please see several hypertension resources below:

Certification and Training Courses:

- [Free blood pressure measurement training and certification course and Home Blood Pressure Monitoring course sponsored by WHO/PAHO/WHL.](#)
- [Hypertension Canada free virtual symposia on WHO HEARTS](#)

Calls to Action:

- [WHL Hypertension Call to Action in Africa \(*Hypertension*\)](#)
- [WHL/RTSL/ISH Global Call to Action on Dietary Sodium \(*Journal of Human Hypertension*\)](#)
- [Sao Paulo Call to Action for the Prevention and Control of Hypertension](#)

Accuracy in Blood Pressure Management Guidance and Publications:

- Guidance on accurate blood pressure evaluation via the [STRIDE BP program](#)
- [European Society of Hypertension/Stride BP position paper on ideal features of BP Measurement devices](#)
- [ESH Position paper on Blood Pressure variability](#)
- [ACHIEVE paper](#) on implementation of the Hypertension Call to Action in Africa
- Accuracy in Measurement of Blood Pressure collaborative ([AIM-BP](#))
- [Online tool](#) for checking the validation status of blood pressure monitors in multi-languages
- [A Universal Standard for the Validation of Blood Pressure Measuring Devices](#)
- [Lancet Commission on Hypertension group position statement on the global improvement of accuracy standards for devices that measure blood pressure](#)
